# Home Assistant Cloud

www.smarthomejunkie.nl

## OLD

← Home Assistant Cloud

Home Assistant Cloud

Home Assistant Cloud provides you with a secure remote connection to your instance while away from home. It also allows you to connect with cloud-only services: Amazon Alexa and Google Assistant.

This service is run by our partner [Nabu Casa, Inc](#), a company founded by the founders of Home Assistant.

Home Assistant Cloud is a subscription service with a free one month trial. No payment information necessary.

The screenshot shows the 'General' settings page in the old Home Assistant mobile app. At the top, there are tabs for 'General', 'Server Controls', 'Logs', and 'Info'. The 'General' tab is selected. Below the tabs, there is a 'Home Assistant URL' section with a text input field and a 'SAVE' button. A yellow arrow points to the text input field. Below this, there is a 'Local Network' section with a toggle switch labeled 'Automatic'.

Home Assistant URL

Configure what website addresses Home Assistant should share with other devices when they need to fetch data from Home Assistant (eg. to play text-to-speech or other hosted media).
